TPSC 1300 NG – S/R (Surplus/Rebuild) Natural Gas Unit

ENGINE

| Manufacturer | Cummins | |
|-------------------------|------------------|--|
| Engine Model | QSK60 Mark 1 | |
| Configuration | V16 | |
| Displacement, L (cu.in) | 60.3 (3683) | |
| Aspiration | Turbocharged (2) | |
| Compression ratio | 11.4:1 | |

- Sound attenuated dual stacked ISO 20 Foot Containers
- Internal and external emergency stop button
- > 50mm Rock Wool insulation with perforated cover
- Multi fan vertical discharge radiator
- ComAp Intellivision 12" touch controls
- Murphy lubricating Oil Make Up system
- > Stainless steel exhaust
- CSA approved gas train & control cabinet
- > Fully integrated Plug and Play
- > No extra foundations required for installation
- Easy Service Accessibility
- Cummins North America wide parts & service

POWER AND EFFICIENCY @ 60 HZ

| Electric Power – kW 1100 | Electric Efficiency 36.1% |
|--------------------------|---------------------------|
| Heat Power – kW 1156 | Heat Efficiency 36.9% |
| Input Power – kW 3100 | Total Efficiency 73% |
| Duty | Continuous |
| Power Factor | 0.8 |
| Phase | 3 |
| Wires | 4 |
| RPM | 1800 |
| Voltage | 416/480 |

CSA CONTROL CABINET

| Generator Controller | ComAp Intellivision 12" touch |
|----------------------------|--------------------------------|
| Electrical Control Cabinet | Integrated, IP54, CSA Approved |
| Breaker | Merlin Gerin nw25 (2500 amp) |

FUEL INFORMATION

| Fuel Type | Natural Gas |
|---|--------------------|
| Methane Number | 73 |
| Fuel Consumption @100% load m ³ /h | 10.6 GJ per m³/h |
| Supply Gas Pressure Range, kPa | .20 Bar or 2.9 PSI |
| Emission Information | |
| NOx, mg/Nm ³ | ≤ 500 |
| CO, mg/Nm ³ | ≤ 850 |

CONFIGURED ENCLOSURE DETAILS

| 1100kw Island | 1300kw Grid Parallel |
|-----------------------|--------------------------------|
| Container Painting | Light Grey |
| Generator Room Access | Dual entry points on each side |
| Noise Level @ 1m, dB | 87 dB |
| @ 7m, dB | 80 dB |
| @ 10m, dB | 73 dB |

DIMENSIONS AND WEIGHT

| Dimensions (L X W X H) in feet | 20'0" X 8'0" X 8'6" |
|--------------------------------|---------------------|
| Weight, Kg (Genset Only) | 19,270 Kg |
| Weight, Kg (With GAM) | 24,930 Kg |

ALTERNATOR

| Build Specification | Dual bearing, re-greaseable |
|------------------------|-----------------------------|
| Mechanical Arrangement | LSA502-8-036 |
| IP Rating | 23 |
| Excitation Type | Shunt + PMG |
| Number of ends out | 6 lead/neutral point in TB |
| Instrument CT's | 2200/0.55 2VA |
| AC Heaters | 240 VAC 1 Ph |
| Bearing RTD's | PT100 – DE & NDE |
| Winding RTD's | PT100 – 2 per phase |
